

Service Packs, Updates, Hotfixes och Object Enablers för AutoCAD-produkter

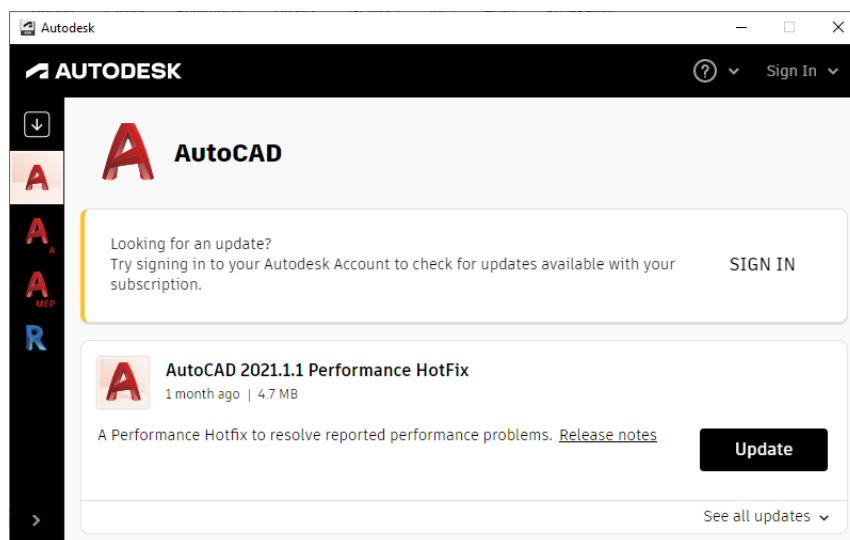

Denna sammanställning visar ett urval av relevanta Service Packs, Updates, Hotfixes och Object Enablers för AutoCAD-produkter. Eventuella uppdateringar sedan föregående revision 2022-03-28 är [färgmarkerade](#). Observera att även rubriker är länkar till en sammanställning över alla uppdateringar specifikt för produkten.

På Autodesk:s hemsida finns det även en lista över alla tillgängliga [Autodesk-uppdateringar](#). Autodesk tar emellanåt bort uppdateringar från sin hemsida – meddela oss gärna om ni upptäcker någon felaktig länk. AEC redovisar endast uppdateringar för de versioner som visas på Autodesk:s hemsida. Länkar för äldre versioner kan tillhandahållas på begäran, men AEC tar inget ansvar att de fortfarande fungerar.

För att se vilken Service Pack/Update man har på sin installation, använder man kommandot **ABOUT**, där det uttryckligen står vilken Service Pack som är installerad, exempelvis SP1.

- 💡 Autodesk Desktop App installeras med de flesta av Autodesk:s produkter, och är en användbar produkt för att hålla programmen uppdaterade. Applikationen kontrollerar vilka program som finns installerade och vilka uppdateringar som ännu inte installerats. Har du inte appen installerad kan den laddas ned från [Autodesk:s hemsida](#).
